

## TRUSTEES' MEETING

### APPROPRIATION BY COUNTY FOR VERDUGO WASH BRIDGE REPORTED

The Board of Trustees met in regular session at the City Hall at 8:10 p. m. July 26, 1917.

Present at roll call: Grist, Jackson, Thompson, Woodberry.

Absent: Muhleman.

The minutes of the last regular meeting were read and approved.

A communication was read from Margaret E. Lucas requesting exemption from taxation of \$1000.00 as a soldier's widow on her property in Glendale. On motion of Trustee Woodberry, the communication was referred to the City Attorney.

A letter was read from the Mayor of the City of Riverside, requesting the assistance and co-operation of the City of Glendale in the efforts of Riverside to secure the Convention of the League of California Municipalities for the city in 1918. On motion of Trustee Grist, it was ordered that the communication be received and filed, and that the Trustees of the City of Glendale give to the City of Riverside the assistance requested; the Clerk to notify the Mayor of Riverside of this action.

An application was read from H. R. Bowers for permit and license to operate a motor bus, which being approved by the City Manager, was, on motion of Trustee Woodberry, ordered to be granted.

The City Manager reported, having granted subject to the approval of the Board, permission to the Home Garden Society to use the band stand and seats at the corner of Louise and Broadway for the purposes of their weekly market of produce.

The City Manager reported that Kent & Son request permission to close the sidewalk temporarily in front of the Elks' building on Colorado street. On motion of Trustee Woodberry, the request was granted.

He presented a letter from Supervisor Jonathan S. Dodge reporting that the Supervisors had agreed to set aside the sum of \$15,000.00 to be used in the work of building a new bridge across Verdugo Wash at Brand boulevard, the same to be available at such time as the work may be required, preferably after January 1st. The letter suggested that in the opinion of the writer, the City of Glendale should procure all rights-of-way at its own expense, and that these rights of way should be secured under such conditions as would guarantee that no damages could be claimed against the county on account of the building of the bridge at the point mentioned. The communication was ordered to be received and placed on file. In connection with this matter, the City Manager reported that he had written several letters and intended to see various persons in regard to securing rights-of-way.

He also reported that a representative of the Board of Supervisors had visited Glendale during the week in connection with the matter of changing the voting precincts in this city.

Engineer Reagan had also had a representative here looking over the Sycamore canyon in connection with flood control matters.

On motion of Trustee Grist, the matter of grades and plans for the improvement of Sycamore canyon road was referred to the City Manager and Chairman of Public Works Committee and the City Engineer. This committee to take up the matter with County Engineer Reagan.

### THE GLENDALIAN PLAN

The wisdom of the "Glendalian Plan" suggested by E. F. Parker and sent broadcast over the United States to those in authority everywhere by Walt Le Noir Church of the Glendale Chamber of Commerce, is being demonstrated at the present time. In brief this was an appeal to the government to place a minimum price on necessary foodstuffs, such as potatoes, to protect the grower. Everyone was urged to plant vegetables early in the summer and now those who have vegetables to place on the market find that they can not sell them at a profit. One man residing a few miles beyond Burbank planted an immense amount of cabbage which is now at maturity. The best price he can get for it is 15 cents a crate and he would lose money by placing it on the market at that price. Any one may go and help themselves to the cabbage as he expects to plow it under as the cheapest way out of the dilemma. This year's experience will cause many to abandon gardening next year and there is likely to be a scarcity of vegetables. By the "Glendalian Plan," there would be sufficient food at a reasonable price for all.

### LAND FOR ALL MEETING

Another successful meeting to discuss this important principle was held at the Webb home on West Seventh street last evening. Dr. Adah Patterson made the main address. Miss Corinne Carpenter, a single tax guest from New York City, who attended the national convention last April, spoke briefly as to the new enthusiasm in the East on this question. So it can be no longer said that the single tax current literature is too scientific and unemotional.

Dr. Patterson believed that events of the nation were shaping so as to usher in sooner than expected a nation-wide movement to open up the monopolized unused land to the people. Mrs. Webb played two piano numbers and Elizabeth Webb sang.

## BANK NOTES SCARCE

### TREASURY DEPARTMENT CONFRONTED WITH DEARTH OF ONE, TWO AND FIVE DOLLAR BILLS

(Special Service to Glendale Evening News)

WASHINGTON, July 27.—An unusual and acute scarcity of one, two and five dollar bills confronts the Treasury Department. Multiplication of the government's pay roll and excessive industrial activity to fill war contracts are responsible. To meet the emergency the Treasury is restricting the allowance of small notes to banks to the number of "unfit" bills brought in for exchange. Previous custom was to let the banks have small notes in exchange for notes of larger denomination.

## CAPTAIN FLORENCE

### THE CAPTAIN SAYS THIS IS NO TIME TO DISCUSS CAUSES OF WAR—WAR IS HERE

Something new was learned about the world war by the men and women who heard Capt. Wattering Florence's lecture at the High School auditorium Thursday evening. The captain is a Canadian who volunteered his services in the early part of the war, and he was engaged in active warfare until sickness forced him to take a vacation. Now he has almost entirely recovered from his chronic illness, and will return to the trenches in the near future.

Capt. Florence said it is not in place now to discuss the cause of the present war,—it is only a waste of time. The one thing to remember is that we are actually engaged in war and that there is no honorable way to keep out of it now.

He said for 40 years Germany has been preparing an army, and three years ago plans were laid by the Prussian power to send their army out to conquer the world. The plan was to cross Belgium, take France and then march on and conquer Great Britain, and following this the United States, would fall under the Prussian rule. The speaker said the German military powers have in mind a definitely outlined program and an effort will be made to carry out this program, regardless of the time it will take.

The speaker called the attention of the audience to the fact that ever since the beginning of the war the Germans have kept their hand concealed. Rather than declare war they have preferred to go ahead, with a determination of disregarding important world treaties, sinking ships and committing other depredations.

Dr. Henry R. Harrower introduced the speaker. Miss Elizabeth Mottern entertained the audience with beautiful piano selections prior to the opening of the meeting.

### RETURN MISSING ARTICLES

Mrs. Weetman of La Ramada, who loaned her entire equipment free of all charge for the Allies' Fiesta, reports a number of things missing. Mrs. Weetman will be very grateful if those in charge of the Fiesta will see that these things are returned to her. Four tablecloths, unmarked; one table top marked E; five thin white china plates; 13 small bread and butter plates marked P. E.; 10 large bread and butter plates marked P. E.; 8 cups; 14 forks not marked; 8 knives; 13 teaspoons; 11 thin tumblers, are the articles missing. Five common tumblers not belonging to Mrs. Weetman were left with her. Also a knitted shawl, pair of new sheets, white enameled bucket, small hand worked table cloth, cake plates, vases and glassware.

### FROM THE YOSEMITE

J. G. Hunchberger writing from the Yosemite Valley, says: This is an ideal spot to spend a summer vacation and our only regret is that the time for our homeward journey is fast approaching. In another week we expect to be back in Glendale. We have met several parties here from Glendale and vicinity: R. A. Peterson and wife of Glendale, the Rev. Rider and family of Tropic, Miss Wall, one of the high school teachers, Mr. L. C. Brand and Mr. Pomeroy. A number of others had been here and gone before our arrival. I wish all Glendale could visit and enjoy this beautiful spot. The rains of last week have swollen the river and falls above their normal size for this year. The river especially at this point where we camp was fully a foot higher when we arrived on July 17 than it was when we arrived here a year ago, the same date. We hope Glendale is cooler than when we left there, July 1.

### DR. BARDILL COMMISSIONED

Dr. John W. Bardill, 1221 North Brand Boulevard, has just received word from the Adjutant General, U. S. Army at Washington granting him a commission of First Lieutenant in the Officers' Medical Reserve Corps, and directing him to report by telegraph to the commanding general, Western Department at San Francisco for assignment to active duty. Dr. Bardill is closing his offices in the Baker-Detwiler Bldg., Los Angeles, and in the Cole & Damerrell Bldg., Glendale, so that he may act in accordance with orders received.

WEATHER FORECAST—Fair tonight and Saturday. Southwesterly winds.

## PACKER RETURNS

### CALIFORNIA FURNISHED 72 DELEGATES TO ELKS' CONVENTION AT BOSTON

Glendale's membership of over 700 Elks honored Past Exalted Ruler Stephen C. Packer by electing him as delegate to the World Convention of the Elks held in Boston from July 9 to 15. California furnished 72 delegates, who went in a special over the Salt Lake Route, Passenger Agent Clarence Redmond of 1431 West Fifth street, Glendale, who is an Elk, accompanying the delegates. Stops from two hours to twelve hours were made at Salt Lake City, Chicago and Niagara Falls.

The convention was held in Temple Hall, Boston, a building of historic fame. Out of a total membership of 500,000 Elks, there were 1700 delegates present. On account of existing war conditions, all demonstrations such as street parades and expensive floats were not engaged in, and the entire program was in keeping with what is now uppermost in the minds of the American people.

A resolution was passed appropriating \$1,000,000 to be used for the purpose of establishing hospital bases in connection with Red Cross work, this money to be raised by \$2.00 per capita assessment of members. The passage of this resolution was wired to President Wilson. The act met with the hearty approval of all Elks the world over.

Mr. Packer returned by way of a southern route. He visited in Washington, D. C., Philadelphia, Atlanta, Chattanooga and New Orleans.

### FINE FOR GLENDALE

That's what they all say—"Who all?"

Well, not only the boys who are drafted and must be examined, but also their friends and employers and business associates.

But what is so fine for Glendale? Just this. The secretary of Glendale Chamber of Commerce received a hint from Mr. Echols, of Roberts & Echols, that led to a conference with Mr. F. D. Lanterman, which resulted in an arrangement for the Exemption Board for the 7th District to meet in Glendale, so our boys will not have the expense of time and money going over to San Fernando. That will be a great saving to Glendale, first and last.

The examining physicians will also be here.

The Seventh District Exemption Board consists of chairman Wilson, of San Fernando, secretary, Mattison, B. Jones of Glendale, and F. D. Lanterman of La Canada.

The Chamber of Commerce has arranged for them to use 2 rooms over its own rooms, which is satisfactory to Mr. Lanterman, acting for the Board. Meanwhile, during the month or more which it will take to make these examinations, the Chamber of Commerce cordially invites all interested to visit the Chamber of Commerce frequently and study the fine and varied exhibits there displayed.

It will be a good place for the boys awaiting their turn for examination to meet their friends socially, and to hold meetings among themselves, or with their sisters, their cousins, and their aunts.

In a word, the Chamber of Commerce is at their service in any way that will be of help to them.

Mr. Lanterman and the other members of the Board did a good thing for Glendalians in being willing to hold meetings here as well as at San Fernando.

"God loves the Glendalians—if he does give the big business to the Los Angelenos."

WALT LE NOIR CHURCH,  
Secretary Glendale C. of C.

### A GROWING HOME INDUSTRY

The Henry-Brown Company, at 702 West Broadway, opposite the Glendale Sanitarium, is conducting a worthy enterprise for the benefit of the community. They own a \$10,000 or \$12,000 equipment of machinery and employ several men manufacturing beverages that have a ready sale on the market. They make a specialty of the Sierra Club Ginger Ale, which is bottled in a sanitary manner and placed on sale with leading dealers in this section of Southern California.

### LADIES WANT FRUIT

## THE WOMEN'S WAR WORK COUNCIL OF THE Y. W. C. A.

Ever since this country first faced the possibility of an active part in the European war, the National Board has been confronted with the immense responsibility for helping to safeguard moral conditions in the neighborhood of training camps and for providing for the welfare of women of varied industries in the unusual conditions created by war. The far-reaching plans of the Young Men's Christian Association can only be realized as the girls and women near the camps realize their duty and uphold the highest standards of honor and character. It is an exceptional privilege to so direct the spirit of youth and patriotism that it may be a power and not a danger in these days of trial. To this end, the National Board has authorized the creation of a National War Work Council of one hundred women, consisting in part of National Board members and Field Work representatives and in part of women of varied interests not at present connected with the Association, that together they may plan and work to meet this great need.—Sunset.

#### "ISMS"

"The worst of all isms," said the lecturer, "is pugilism."

"Pardon me, my friend," rejoined a man who had just entered the hall on crutches, "but I know a worse one than that."

"What is it, sir?" queried the lecturer.

"Rheumatism," answered the other.—Medical Brief, St. Louis.

#### INERTIA OF BODIES

Lay a visiting card on the tip of the left forefinger and on it place a penny. A quick flick of the card with the right second finger will remove the card without disturbing the coin. Another trick which illustrates the inertia of bodies is to knock away the bottom of a pile of checkers without upsetting the pile. This is effected quite easily with the help of a flat ruler. The remaining checkers are removed successively by a number of smart blows.

A more spectacular and apparently risky trick consists of drawing a newspaper away from under a glass filled with water. Provided, however, that the table is smooth and the paper be pulled away smartly and horizontally there is no danger of the water being spilled.

#### BEYOND HIS MEANS

"How much are your pies, mister?" asked diminutive Tommy peering wistfully over the top of the counter.

"Ten cents apiece, little feller."

"Oh, I didn't want a piece; I wanted a whole one, but I only got a dime," and Tommy started to turn sorrowfully away.

"Now, Johnnie," the teacher queried, "what would you do if you had a goose that laid golden eggs?"

"I'd set her on some of the eggs," replied the youngster, "and hatch out more geese of the same kind."

#### HIS SPECIALTY

"Did I understand you to say that this gentleman is an impresario?"

"That's what he calls himself."

"Then he must know a great many grand opera stars."

"Oh, I dare say he has met a few in vaudeville. He directs a troupe of trained apes."

### ATTEND TO YOUR BUSINESS

A resident of Glendale remarked  
a few days ago that he is pleased to  
know that there are a few places of  
business in this city that are being  
conducted on the line of practical  
business principles. He said: "The  
time has been here when I would  
drive into a garage to have some re-  
pair work done on my machine and  
there was actually so much grease  
and dirt on the floor and on the  
clothing of the mechanics that when  
I would take my auto from the shop  
I could not go near it without ruin-  
ing my clothing. A workman would  
jump into the machine, grab the  
steering wheel to drive around a  
block to test out the working of the  
engine and when he arose from the  
seat and took his hands from the  
wheel, he surely left his mark. If  
perchance a lady would soon after-  
ward occupy the seat her dress skirt  
would become terribly soiled, and  
the clean hands that grasped the  
steering wheel were not clean until  
washed again."

"Thank the Lord there are a few  
places in Glendale now that a man  
can go and have repair work done  
without digging his way through  
grease and dirt."

"The careless habit is not alone  
confined to garages in Glendale," re-  
marked this gentleman. "A few weeks  
ago I went to a soda water foun-  
tain to get a cold drink. The young  
man who came to wait on me had  
wonderfully dirty hands and his  
finger nails had an appearance that  
nauseated me. I have visited gro-  
cery stores in Glendale where food  
products are kept in a very unsani-  
tary manner."

"Another fault I have to find," says  
our informant, "with business con-  
cerns in Glendale is that they do not  
give careful attention to waiting on  
customers. Desiring to buy mer-  
chandise in Glendale I visited a place  
of business on two different occa-  
sions. The door was open but no  
one was in the store to wait on cus-  
tomers. I was in a hurry both  
times and have not made a third  
visit to that store, thinking I might  
again be disappointed."

The places mentioned above may  
be exceptions to the general rule,  
but if a stranger happened to visit  
one of these places, he does not know  
but all other places of business in  
Glendale are about in the same class.  
Wake up, clean up and attend to  
your business.

### CHILDREN AT PACIFIC AVENUE PLAYGROUND DELIGHTED WITH EXHIBIT

Last Monday afternoon the mem-  
bers of the children's nature class at  
the Pacific avenue school were de-  
lighted with the exhibit of butter-  
flies shown by Harold Duey and the  
interesting things he had to tell  
about them.

He brought with him several live  
and wriggling specimens of the  
beautifully striped larvae or cater-  
pillars of the monarch or milkweed  
butterfly and a beautiful jade and  
gold chrysalis resembling very much  
the earrings which dangle from mi-  
lady's ears.

Harold Duey has quite a fund of  
information on this subject of but-  
terflies for having been but two  
months at the work of collecting  
and classifying them.

Besides the beautiful butterflies  
shown, there were tiny Japanese tur-  
tles, frogs and odd sea-forms exhib-  
ited. An attempt is made to have  
the children write down some of the  
stories told and to draw and color  
pictures of the specimens, but this is  
not required.

We are hoping to see some moths  
and their larvae and cocoons for the  
coming Monday's lesson.

There are two persons in charge  
at the playgrounds, and while the  
nature class is being held inside, any  
others are adequately cared for out-  
side.

Mrs. A. S. Chase and Mrs. H. D.  
Thaxter will supervise this Friday  
afternoon.

### TUJUNGA

Fourteen ladies met at the home of Miss Benedict on ElCentro, to do Red Cross work. Miss Culver had brought a plentiful supply from Pasadena and the ladies made swift work of it. Mrs. Dobbin and daughter and Mrs. Wrigley of the Pasadena chapter met with the ladies, bringing samples of different kinds of work and explaining the greatest needs in the Red Cross work. She especially spoke of the need of men's hose and urged that every woman who could knit, should use her talent for the benefit of the soldiers, as the coming need for socks is the greatest of all, and the coming winter will be hard for those who are unprovided. Mrs. Ridgley expressed her admiration and surprise that so many of the ladies had responded to the Red Cross call, and said further, that nothing was needed to stir up the patriotism of the ladies of Tujunga, for its spirit was well demonstrated at the meeting.

A large box of clothing donated by the ladies of the colony, was sent to the Behvens family, whose home was

destroyed by fire last week near Kelseyville. Miss Culver had charge of the collecting and shipping.

Mrs. Slavinsky has returned from the Burbank hospital with her young daughter and both are in good health.

Mrs. Le Pine of Douglas, Arizona, was in Tujunga looking after her home on North street. She is visiting in Glendale with her mother; will return Tuesday.

Frank Green was a Sunday visitor at his home on San Ysidro. He speaks in glowing terms of the work in San Pedro, but thinks furloughs hereafter will be few and far between.

Mr. and Mrs. C. J. Woodson are the proud possessors of a baby girl only a month old, that they have adopted. All their friends rejoice with them and know the young lady will have a good home.

Mr. Darlingaon is having a vacation at Catalina Island for two weeks.

Dr. Maesel Sundayed at his home

in Tujunga, but owing to business in the city, will rent the house during the summer.

\* Don't let your interest in your garden flag. The real need is to come later; let every one use their far sight and prepare for the emergency to be met the coming winter. A small patch of potatoes put in during September will furnish enough for winter, and will keep better if sprinkled over with air slacked lime. Beets, turnips, and salsify, as well as parsnips may be left in the ground and dug when wanted. A small cold frame covered with cheese cloth is fine for the winter lettuce and radishes.

Miss Myra Osgood shot and killed a fine rattler which was coming across the street to call on her last week. It had nine rattles to show for his age.

The ladies of the Red Cross auxiliary would like those who cannot give the time to sew or knit, to get busy with their shears and snip small bits of cotton cloth (all clean) for filling surgical pillows. The children could be interested in this work and be of great help. The snips of cloth can be left with Miss Benedict, Miss Culver or Mrs. Dean.

Miss Hannah McKee has gone to Ocean Park for a few days visit with Mrs. Mehard who is enjoying a short vacation there.

Mr. Parker is putting on an addition to the house purchased by him. A large dining room will surely be needed if one judges by the number of his Glendale friends.

Capt. Hatch is picking large quantities of the Himalaya blackberries, and finds a ready market for them. They are easily grown and more productive than any of the other blackberries.

Mr. and Mrs. Stewart with Mrs. Chas. Warren motored Monday to the Sespe Canon near Fillmore, where Mr. Warren is working under Joe Foster, putting in check dams.

Mrs. J. H. Frost and daughter, Margaret are taking a vacation at the beach. Richard remains at home under the care of Miss Culver.

Herbert Crooks, wife and daughter were callers on Tuesday on their way home from Newhall. They reported the weather as very hot in that locality.

Ben Clark has returned from a week-end trip to Long Beach, where his family are staying for the summer.

The horse owned by Miss Julia Culver created quite a sensation by tipping the buggy over a big rock and running away. When at last caught, broken shafts and dash board were the amount of the dash. Horses should be tied when left for

a time, no matter how gentle, especially when one has to go miles to find a blacksmith.

The son of Omar Fish, who resides on Pine street, is quite ill of fever.

Miss Roberts of the Ventura Boys' School, was in the village Wednesday, looking after her lot and trying to plan for a combined garage, with living rooms.

Mr. Trout arrived home from Hemet, where he has been looking after the marketing of his apricot crop. The peach season will not begin until the first of August.

Mr. J. E. Carr will take parties to any of the beaches or any desired trip by auto. See him on Greeley avenue or inquire at the postoffice.

An interesting letter from Howard Smithkies, who is making good as a member of the Zone police at Ancon, tells of a celebration of the 4th of July that was a brilliant success. It appears that another of our boys, Chancellor Livingston, who is a member of the crew of the U. S. S. Stewart took part in the games, being one of the winning relay team, and coming in second in the low hurdles. The contest was spirited and was participated in by various military units and the navy. Clippings sent speak of the arrival in the Canal Zone of a fine regiment of Porto Ricans with an almost perfect set up and it is pleasing to note the good record of the Tujunga boys in the military and naval service.

### SPIDER MENACES BEANS

Gardens in and around Lordsburg are being threatened by a new pest in the form of a spider. The insect is red in color and is scientifically known as tetranychus telarius. It is threatening the bean and other vegetable crops. Prof. H. H. Nininger of Lordsburg college has sounded a note of warning against this red spider and he declares that unless prompt action is taken by growers tons of beans will be lost. Prof. Nininger gives as a preventive dry sulphur and hydrate of lime sprinkled or grown on the plant.

# Heap big mileage!

In every layer of fabric, in every bit of rubber—permeating the entire casing! No wonder Savage Tires average so much greater mileage.

Savage Tires are built to give mileage first, then road comfort and complete satisfaction—they are not made to sell at a price. And yet Savages cost no more than ordinary casings.

Sold through our own distributors. We put the middleman's profit into extra quality—"Heap big mileage!" Watch for the red Savage sign.
